

ATANAS KAMBITOV

Software Engineer

WORK EXPERIENCE

Sainsbury's Store | Software Engineer | Coventry UK

03/12/2018 – Now (7 months)

Hands on experience with Microservice architecture and full-stack development including unit, integration and performance testing. Experience in Docker and Azure services - DevOps, SignalR, Key vault, AAD, Redis, Container Registry, Kubernetes, App Service, Azure Cosmos, Service Bus, Event Hub, Stream analytics and more.

Working in an agile way with scrum in a team of five people providing code quality, latency, stability and performance.

A lot of work with .Net Core, React, non-relational and SQL databases.

SoftUni | Software Engineer | Sofia, Bulgaria

05/12/2016 – 21/12/2018 (2 years)

Create and maintain backend API's, databases and frontend apps.

Quickly deliver quality code and meet deadlines in a high pressure work environment with different technologies, languages and frameworks.

Paolo Pavia | Prestashop & WordPress Developer | Sofia, Bulgaria

11/02/2015 – 19/05/2016 (1 year and 3 months)

Develop, support and rebuild cloud based applications related to shopping, advertisement and promotion.

Successfully increase sales and client traffic on our applications.

EDUCATION

South-West University "Neofit Rilski"

15/09/2014 - 25/05/2018 (4 years)

Bachelor degree in Informatics.

Private Software University (SoftUni)

05/12/2016 – 21/12/2018 (2 years)

Professionally graduated and qualified C# and JavaScript developer.
