Dear Sir/Madam

With 3.5 years of full time professional experience.

I am confident I will be an excellent fit for this Junior Cloud Developer role.

My experience has provided me with the skills and abilities to successfully fulfill the requested requirements for this position.

My work also includes building maintaining and supporting modern web applications and websites for Sainsbury's using the latest cloud technologies including Azure, AWS and GCP.

Container orchestration using Docker, AKS, EKS or GCE.

Agile, Scrum, DevOps, Azure Active Directory, OAuth2, Open ID Connect and more.

It would be a pleasure to learn more about your needs and hopefully have an opportunity to provide further insight into my personal and technical knowledge.

Thank you for considering my application for this position, I hope to hear back from you to schedule an interview.

Sincerely,

Atanas Kambitov
